(Total: 10 marks)

(TOTAL: 40 MARKS)

PART B: GRAMMATICAL ERRORS

QUESTION 1: ERROR ANALYSIS I

The following passage contains TEN (10) errors in subject-verb agreement. Locate the verb errors and correct them as shown in the example.

Example:

Line	Error	Correction
1	play	plays

The Impact of Digital Literacy

In the modern era, digital literacy **play** a crucial role in the development of a student's academic career. Every child in primary schools now require access to a computer to complete their daily assignments. The set of skills needed for navigating the internet allow students to explore vast amounts of information. However, the abundance of data often lead to confusion if students do not know how to verify their sources.

Teachers and parents often discusses the best ways to monitor screen time. A group of educators believe that technology should be integrated slowly into the curriculum. Each of these experts argue that the physical well-being of a child is just as important as their digital skills. Furthermore, neither the school nor the government have provided enough training for teachers to handle new software effectively.

In addition, the speed of technological change mean that hardware becomes obsolete very quickly. Buying new equipment for classrooms cost a significant amount of money every year. This financial burden hinder the progress of schools in rural areas where funding is limited. It is essential that we address these gaps to ensure that every student has an equal opportunity to succeed in a digital world.
