

**FINAL EXAMINATION**

**BACHELOR OF BUSINESS ADMINISTRATION (HONOURS)
BACHELOR OF CORPORATE ADMINISTRATION (HONOURS)
BACHELOR OF BUSINESS ADMINISTRATION (HONOURS)
HUMAN RESOURCE MANAGEMENT**

COURSE	: FINANCIAL MANAGEMENT
COURSE CODE	: FIN2203
DURATION	: 3 HOURS

INSTRUCTIONS TO CANDIDATES:

1. This question paper consists of **FOUR (4)** questions.
2. Answer ALL questions in the Answer Booklet provided.
3. Please check to make sure that this examination pack consists of:
 - i. The Question Paper
 - ii. An Answer Booklet
 - iii. Appendix 1-5
4. Do not bring any material into the examination hall. The use of calculator is allowed.
5. Please write your answer using permanent ink.

This question paper consists of 8 printed pages including the front page.

QUESTION 1

EcoFresh Manufacturing Sdn Bhd is a company involved in the production and distribution of eco-friendly household products throughout Malaysia. Due to increasing competition and fluctuations in raw material prices, the Managing Director has requested the Finance Manager, Ms. Aina, to evaluate the company's financial performance and compare it with industry benchmarks.

EcoFresh Manufacturing Sdn Bhd
Statement of Financial Position as at 31 December 2024

	RM
Cash	12,000
Marketable Securities	18,000
Trade receivables	42,000
Inventories	28,000
Property, plant and equipment	150,000
Total assets	<u>280,000</u>
Liabilities	
Trade payable	18,000
Accrued expenses	12,000
Short term loan	10,000
Long term Debt	70,000
Share capital	130,000
Retain earnings	40,000
Total liabilities and equity	<u>280,000</u>

EcoFresh Manufacturing Sdn Bhd
Statement of Profit or Loss and Other Comprehensive Income
for the Year Ended 31 December 2024

	RM
Revenue	700,000
Less: Cost of goods sold	(280,000)
Selling expenses	(50,000)
Administrative expenses	(120,000)
Earnings before interest and taxes	250,000
Interest	(30,000)
Earning Before Tax	220,000
Less: Taxes (25%)	(55,000)
Net profit	<u>165,000</u>

Industry average ratios:

Industry Average Ratios	
Quick Ratio	1.5 x
Average Collection Period	22 days
Inventory Turnover Ratio	10.0 x
Debt Ratio	35%
Times Interest Earned	6.0 x
Gross Profit Margin	60%
Net Profit Margin	20%
Return on Assets	55%

Notes:

- i. Opening inventories as at 1 January 2024 was RM24,000.
- ii. Use a 360-day year.
- iii. Assume all purchases were made on credit.

Required:

- a. Find the relevant financial for EcoFresh Manufacturing Sdn Bhd.
(17 marks)
 - b. Based on your answer in (a), interpret the company's financial performance and financial position with the industry averages.
(8 marks)
- (Total : 25 marks)

QUESTION 2

Naas Bhd is considering investing in Project AZ and NA. Its owner Azura is a risk-averse investor has forecasted the projects' returns as follows:

Scenario	Probability of Occurrence	Project AZ's returns (RM)	Project NA's returns (RM)
Depression	25%	(2,000)	(1,000)
Decline	25%	4,000	5,000
Growth	30%	8,000	7,000
Boom	20%	10,000	11,000

Required:

- Calculate the expected return for both projects.
(5 marks)
 - Calculate the standard deviation for both projects.
(9 marks)
 - Determine how Azura can evaluate the risk per unit of return for Project AZ and Project NA. Justify your answer with calculation (if any).
(2 marks)
 - Based on your answer in (c), explain how the coefficient of variation can assist Azura in choosing Project AZ and Project NA.
(4 marks)
- (Total: 20 marks)

QUESTION 3

Makanan Segar Nusantara Sdn Bhd is one of the leading food manufacturers in Malaysia. In response to growing consumer demand and increasing competition within the industry, the company is evaluating a proposal to acquire a new automated food packaging system. Management believes that the investment will improve production efficiency, reduce operating costs and strengthen the company's competitive position in the market.

The acquisition of the new automated packaging system requires a purchase price of RM1,800,000. Additional costs include delivery expenses of RM30,000, installation costs of RM40,000 and system integration costs of RM25,000. Prior to commencing operations, the company already incurred staff training expenses of RM20,000. The project requires an increase in inventory of RM80,000, while accounts payable is expected to increase by RM30,000, thereby partially offsetting the additional working capital requirement.

The equipment is expected to have a useful life of five years and an estimated salvage value of RM150,000 at the end of the project. Straight-line depreciation will be applied throughout the asset's useful life amounting RM349,000.

Management forecasts that the investment will generate different operating benefits throughout the project's life. During years 1 to 3, the system is expected to generate additional annual sales revenue of RM450,000, labour cost savings of RM80,000 and maintenance cost savings of RM30,000. Additional annual operating expenses of RM100,000 are also expected during this period.

As demand for the company's products is projected to increase further, the annual additional sales revenue is expected to rise by RM600,000 during years 4 and 5. Labour cost savings and maintenance cost savings are projected to increase by RM100,000 and RM40,000, respectively, while additional annual operating expenses are expected to increase by RM120,000.

Makanan Segar Nusantara Sdn Bhd is subject to a corporate tax rate of 25% and uses a cost of capital of 12% for investment appraisal purposes.

Required:

- a. Calculate the following:
 - i. Net initial outlay.

(8 marks)
 - ii. After-tax differential cash flow.

(10 marks)
 - iii. Terminal cash flow.

(1 mark)
 - iv. Payback period.

(1 mark)

- v. Net present value (4 marks)
 - vi. Internal rate of return (IRR). (4 marks)
- b. Based on your calculations, recommend whether Makanan Segar Nusantara Sdn Bhd should proceed with the acquisition of the automated food packaging system. (2 marks)
- (Total: 30 marks)

QUESTION 4

Eco Utilities Berhad, a leading water treatment and utility services provider headquartered in Shah Alam, is planning to finance the construction of a new advanced water treatment facility to support the growing demand for clean water in the northern region of Peninsular Malaysia. The project requires a substantial capital investment and is expected to enhance the company's operational efficiency while strengthening its position in the utilities industry.

The company has established the following target capital structure:

Source of Capital	Weight
Debenture	45%
Preference Shares	10%
Common Stock	20%
Retained Earnings	25%

Currently, Eco Utilities Berhad has debenture outstanding with a 10 years maturity and a coupon rate of 7%. These debentures are currently trading at RM970 per debenture in the market, compared to their par value of RM1,000 as per debenture. If the company decides to issue new debenture, flotation costs of RM30 per debenture will be incurred.

The company also has preference shares that pay an annual dividend of 8% on a par value of RM100. These preference shares are currently selling at RM102 per share. New preference share issues would incur flotation costs 4% of the current market price.

Eco Utilities Berhad's ordinary shares are currently trading at RM55 per share. The company recently paid a dividend of RM4.20 per share, and the dividends are expected to grow indefinitely at a constant rate of 5% per annum. If new ordinary shares are issued by the company, flotation costs are estimated at 7% of the current market price.

At present, the company has RM12 million in retained earnings available for reinvestment. However, the total cost of the proposed water treatment facility is estimated at RM40 million. The corporate tax rate that applicable to the Eco Utilities Berhad is 27%.

Required:

- a. Determine the cost of capital for:
 - i. After tax cost of debt.

(10 marks)
 - ii. Preference shares.

(2 marks)

- iii. Internal equity. (3 marks)
- iv. External equity. (3 marks)
- b. Calculate the maximum capital expenditure the company can finance without issuing new equity (2 marks)
- c. If the company uses external equity for financing, calculate the Weighted Average Cost of Capital (WACC). (5 marks)

(Total: 25 marks)

(TOTAL: 100 MARKS)

END OF QUESTION PAPER

1. $CR = \frac{\text{Current assets}}{\text{Current liabilities}}$ 2. $ATR = \frac{\text{Current assets} - \text{inventory} - \text{prepayment}}{\text{Current liabilities}}$ 3. $ITR = \frac{\text{Cost of goods sold}}{\text{Average inventory}}$ 4. $ACP = \frac{\text{Account receivables}}{\text{Annual credit sales/360 days}}$ 5. $NCA = \frac{\text{Sales}}{\text{Non-current assets}}$ 6. $TAT = \frac{\text{Sales}}{\text{Total assets}}$ 7. $GPM = \frac{\text{Gross profit}}{\text{Sales}}$ 8. $OPM = \frac{EBIT}{\text{Sales}}$ 9.
